PROFILE

Dear Glad Friend:

We sincerely thank all of our customers for their business in past years and hope we will have the pleasure of again serving you. If you have never ordered from us may we suggest a trial order. We have received many testimonials on the satisfactory performance of our bulbs and firmly believe they will satisfy the most critical buyer.

You will find listed many of the most outstanding exhibition and commercial varieties in the various price ranges.

---

## PRICES

We do our best to price all varieties about in line with other growers, but it seems each year after our catalog is printed we find we have priced some varieties higher than the price asked by other reliable growers. It being too late to change them, we will fill all orders for these varieties with enough extra bulbs to make up for the difference in price.

### KEY TO VARIETY LIST

Size and color are indicated by the code number. The first figure indicates a size group, while the last two digits give the color class. Name of originator follows the variety name.

### BUSINESS TERMS

Prices are for Cash with Order or 25% Deposit to hold an order, balance before shipment or C. O. D.

All quotations are subject to prior sale.

Every effort is made to fill all orders with clean healthy stock, true to name and up to size. However, if error should occur, we will endeavor to make satisfactory adjustment either by replacement of stock or refund of the purchase price.

Shipment can be made either by Parcel Post or Express. If your order consists of both prepaid and F. O. B. items we will ship the entire order Express Collect and add extra bulbs to offset the shipping charges on the prepaid items.

Substitution: We do not substitute variety without permission. If out of size ordered we will substitute with next size larger or smaller to the amount of money sent. If you do not want us to substitute size, please advise.

Minimum order \$3.00—please.

## Winnebago Chief (Himmler-Graff) 59

The color is about the same as Red Charm but the spike is longer and the florets are much larger, a real giant in every way.

We grew 4 bulbs of Winnebago Chief this past season and all 4 spikes were good show quality.

We expect it to win a lot of blue ribbons as it is an easy grower.

**Any size bulb \$3.00**

**1 bulb any size and 10 bulblets \$6.00**

## Giz Shaw (Hecht '59) 422

This was one of the tallest and strongest growing varieties in our test gardens this past summer. The color is similar to Orange Gold, perhaps a bit lighter orange with a slightly larger yellow throat. The 5 inch florets are nicely ruffled and fluted. The substance is good. This looks like a real commercial variety.

**L \$3.00**

**M \$2.00**

**1 L and 10 Bulblets \$5.00**

## Show Fan Collection

In order that more new varieties can be grown for show purposes at a minimum cost for bulbs to the show fan we are making this special offer:

You can select large bulbs one each of 10 or more different varieties listing at 35 cents each or more and take a 20% discount on the lot. Please select a few varieties as second choice in case we have sold out some that you have ordered.

**PAUL BUNYAN** (542 Melk) A huge salmon pink very similar to Spic & Span, with deep rose throat markings. The heavily ruffled and fluted florets are of very heavy texture, with good placement and firm attachment, has a lot of class for so large a floret. Opens 8 to 10 very large blooms often attaining 7" in diameter. It has a very long flowerhead of 22 or more buds most of which are in color. Paul Bunyan grows to a height of 60". The plant is very vigorous with deep green foliage and makes healthy bulbs. Bulb production and germination are both good. Blooms in 85 days. A very good commercial variety.

**PROFILE** (Flad) This glad is in a class by itself. The outer part of the floret has a soft medium pink border about  $\frac{3}{4}$  in. wide. The inner part of the floret is light clean yellow deepening toward the center without markings to mar its beauty. Florets are nicely fluted and ruffled. Substance is heavy with a rib through the center of each petal. We have grown spikes with 24 buds. Opens 8 or more. This is one of the most promising new varieties and I believe one of Mr. Flad's best introductions. Profile makes plenty of bulblets that grow easily into good sized healthy bulbs. Blooms in midseason.

## Rose of Van Lima Sport

We have been growing this sport of Rose of Van Lima in quantity for our flower trade the past ten years and it is about as reliable as any variety we have. It will bloom good from early until late in the season. The color is cleaner and a little lighter than Rose of Van Lima with a large clean creamy white throat much like Tivoli. The florets are smooth petaled with good substance and a bit larger than Rose of Van Lima. Bulbs are extra fine and it is a very fast propagator. Not as fancy as some of the later introductions but a good rugged commercial variety for bulb sales or flowers.
